ABOUT ME

I'm a Frontend Engineer with 3+ years of experience developing visually appealing web applications with delightful user experience. As an avid learner, I thrive in work environments that provide measurable metrics for career growth, great opportunities for skills improvement and promotes close team collaborations and soft skills acquisition.

EXPERIENCE

Jan 2022 - Present **| Frontend Engineer -** *Cova Inc.*

- Collaborate in teams to continuously build, optimise and improve the Cova web app.
- Crafted technical documentation for existing projects in the codebase to improve onboarding processes for new members on the frontend team.

July 2020 - August 2021 **| Frontend Developer -** *SWIPE Limited*

- Collaborated in teams to build digital products with optimised user experience using JavaScript and CSS-in-JS tools.
- Optimised existing codebase of a payment web app and built 4 new functionalities within 1 month of working with React and Redux.
- Crafted and delivered detailed feedback reports to improve work efficiency and communication within teams.

June 2019 - May 2020 **| Web Developer -** *Mental Care Foundation*

- Designed and developed the organization's main website.
- Established a 50% increase in volunteers and members participation by building an emotional support web app with live chat functionality for both users.

Oct 2018 - Mar 2019 **| Developer Intern -** *Crenet TechLabs*

- Eliminated errors for 3 client projects by testing product features.
- Minimized execution downtime for 3 projects by restructuring the UIs with design templates.
- Published 2 articles with social media promotion, leading to a substantial increase in company visibility.

Feb 2018 - Apr 2018 **| Software Engineering Intern -** *Terragon Group*

- Collaborated with a team to create a sample design of a hostel finder application.
- Built a website that featured book recommendations.
- Designed and developed a blog with basic blog features like creating, editing and deleting posts.
